

**CABLE GRIPS FOR OFFSHORE WINDFARMS**  
SAFE, DEPENDABLE AND EASY-TO-USE

Cable grips for the renewable energy sector for use in:

- Cable installation – offshore and onshore
- Cable support inside wind turbines
- Cable management

**WIND TURBINE CABLE SUPPORT GRIPS**  
Providing cable support and load management to the wind turbine cable layout inside the tower.

**MARINE CABLE GRIPS**  
Extremely heavy duty, suitable for large diameter Array Cable and Export Cable installations.

**LACE-UP CABLE GRIPS**  
For use in pulling when cable ends aren't accessible.

**LEOSPHERE**  
A VASALA COMPANY

**The offshore frontier**  
*WindCube: The industry's most proven lidar*

There is a WindCube solution for every stage and application in offshore wind energy.

**WindCube/WindCube Offshore** | Floating and fixed lidar systems, greenfield wind resource assessment  
**WindCube Nacelle** | Widely deployed for power performance testing, monitoring, turbine control  
**WindCube Scan** | Nearshore wind resource assessment, wake and blockage effects, forecasting

Leosphere, a Vasala company, brings decades of experience, a global network of 2 factories and 7 service centers, and unparalleled service offerings to every wind project we support.

**ROBERTSON GEO**  
RENEWABLES  
Unlocking Your GeoData

**We've acquired quality calibrated data from THOUSANDS OF OFFSHORE BOREHOLES WORLDWIDE**

Geophysical probes and surface equipment purpose designed and manufactured in-house  
Logging systems suitable for heavy compensated drill ships or jack-up rigs  
Sealed data from the hardest of offshore locations  
Service crews deployed globally  
Equipment sales, rental and training in the UK or on-site anywhere
