EXTENDING THE REACH

AW169

Designed to comply with the most rigorous standards required by Offshore operators and their end-users, the latest generation 4.5 tonne class twin-engine AW169 offers excellent performance and handling qualities. It enables offshore installations quickly and safely, supporting a wide range of missions including the transfer and hoisting of personnel, maintenance activities in all sea conditions, guaranteeing mission safety and reducing windfarm downtime. The AW169 guarantees the most important drivers for energy helicopter operators: safety, efficiency and flexibility.
